PROJECTS

Briefly AI - AI Software Planning SaaS

2026

Next.js, TypeScript, Tailwind CSS, OpenRouter API, Zod, Vercel

- Built a stateless AI SaaS that transforms **1 rough software idea into 5 structured planning artifacts**: project brief, functional requirements, user stories, acceptance criteria, and task breakdown.
- Hardened the generation API with a **4,000-character input limit**, **64 KB request cap**, and **12 requests/minute rate limit**; added section-level regeneration, Markdown export, and local history for up to **8 plans**.

SkillSync - AI Recruitment Platform

2026

Next.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL, AI APIs

- Worked as **1 of 2 Full-Stack Developers in a 5-member team**, taking ownership of the HR-side application.
- Developed **7 HR-side pages**, integrated AI APIs from **2 providers**, and combined HR and candidate workflows into the final application.

Kyklos - Purchasing and Sales Management System

2026

PHP, Laravel, MySQL, Xendit

- Built role-based access control using **18 permissions across 3 user roles**, applied to application pages and API routes.
- Integrated Xendit in **testing mode across 3 payment channels** with verified webhook handling.

EDUCATION

Universitas Pancasila | Jakarta Selatan

2024 - 2028 (Expected)

Bachelor of Informatics Engineering | GPA 3.86 / 4.00

- Relevant coursework spans **6 core areas**: Algorithms and Data Structures, Database Systems, Object-Oriented Programming, Software Engineering, Data Mining, and Artificial Intelligence.
- PKM-KC "CulturaNet" 2026: co-developed a CNN-based proposal in a **team of 4** with a **Rp10,000,000** budget, scoring **81/100** and placing in the **top 5%** of approximately 40 university submissions.

COURSES & TRAINING

Maxy Academy – Digital Career Bootcamp, Backend Class Batch 26
